Simple and durable control panel graphics

Easy under knob ignition

Flame Failure Device

LP Gas Conversion kit included
LP Gas Conversion kit included. Must be installed by a licenced tradesperson.

BENEFITS

Lock in flavours with high heat
The key to capturing flavours in your favourite stir fry is high heat. With a 14.4 MJ/h wok burner you are able to create dishes the whole family will love.

Family safety first
Our cast iron trivets flat design ensure the base of your pots and pans are fully supported, allowing you to have a safe and stable cooking environment.

Easy to Clean
Spend more time cooking and less time cleaning. Our flat surface gives foods and spills nowhere to hide, making cleaning a breeze.

Flame out. Gas off.
In the kitchen, it should always be safety first. If the cooktop flame unexpectedly goes out, our Flame Failure Device will automatically shut down the gas supply so you and your family can breathe easy.
