## READY, SET, FEED!

Introducing solids is one of the many exciting milestones in baby's first few months of life. The look on their faces upon tasting something other than milk is priceless (and adorable)! It has a small hole at the bottom, which allows food to pass through in digestible amounts, and an on-the-go cap perfect for travel or preserving purees in the fridge. The soft silicone pouch allows for easy feeding of mashed bananas, veggies, and more.
