

## Product Description

With the **Lascal BuggyBoard™ mini** connected to your stroller or pram you have the perfect combination for stress-free outings. *BuggyBoard™* provides security for your child in crowds and high traffic areas. When your child is too tired to walk, or when you are in a hurry, the *BuggyBoard™* makes it easy for both of you.

## Features

- **Large Anti-slip Surface** - makes the board Safe and Comfortable to stand on. The surface reduces the risk for the child to accidentally slip off the board
- **Side Protection Frame** - the frame around the platform provides additional safety for your child
- **Large Ground Clearance** - the large distance between the ground and the platform makes it easier for the parent to walk behind the BuggyBoard Basic™
- **Board Levelling System** - the BuggyBoard Basic™ has a board levelling system that allows you to more freely choose position for the connectors on your pushchair/pram, You just adjust the height of the arms to the connectors height
- **Width Adjusting** - the BuggyBoard Basic™ has a unique width adjusting system that allows you to attach it to both small and wide prams and pushchairs
- **Easy To Attach & Detach** - One-handed operated connector provides easy handling when you want to attach and detach the board from the pushchair
- **Lift-N-Store System** - If the BuggyBoard Basic™ is temporarily not in use, it can be placed in resting position. The strap is easily adjusted to work with your pushchair/stroller
