

Elephant Baby Shower - Blue

Yookidoo[®]
celebrating discovery

The must have bath toy.

Showering a new born often becomes a stressful event, trying to prevent soap and water from getting into baby's eyes. Replacing the traditional shower with a cup, now, with the Elephant Baby Shower this becomes an easy, smooth and enjoyable experience for both parent & child! A battery operated compact & portable baby shower designed for ease of use by parents, and a gentle comfort for babies.

The Elephant baby shower introduces sensory play from baby's first days, promoting visual focus skills through contrast and movement, as well as hand eye coordination and it allows a soothing bath time experience free of dripping cups and teary eyes.

Features

- A compact battery operated portable baby shower with a gentle flow.
- Designed for safe, gentle and easy maneuvering. Enables parent to secure a new born with one hand while the other hand is free to complete a full shower for baby.
- Portable, so perfect for families on the go: on holiday, camping out, or in the garden- baby's bathing schedule need not be interrupted.
- Easy activation shower head with on/off nobs allowing to easily pause or continue water flow.
- Gentle stream enabling easy reach & wash of hair neck and baby folds.
- Soft design for enhanced baby safety.
- Suits all types of baths.
- For newborns, infants and toddlers!
Can be used as a bath toy at later stages.
- Operates on 4 x AA Batteries (not included)
