SMART SUN SAFETY

Block the glare or let in fresh air. The Brica Smart Shade attaches to the window for maximum top to bottom coverage and rolls up and down with most windows. Plus, it blocks 90% of sunlight to help protect delicate skin. We all love a beautiful sunny day. But when you're in the car, the sun's harsh glare can bring out the fussy in even the calmest baby—not to mention the damage it does to delicate skin. Your little travellers will enjoy the cool, shady ride, and you'll love how the new, slim design blends with your car's interior. Ready to use and easy to install.

Features

- Rolls up and down automatically with most windows—block the glare or let in fresh air
- Secure window attachment clips easily over the top edge of your window
- Easy installation—shade housing safely inserts between window and door panel
- Helps filter harmful UV-A and UV-B rays
- Compatible with most vehicles—no tools required
- Extra-wide for superior coverage
